082 920 9816 / 072 264 6436

0,6 or 0,8mm thick Chromadeck boards cut to size and faced with a digital print or vinyl lettering. A durable, rustproof steel - this is what the street signs are made from.

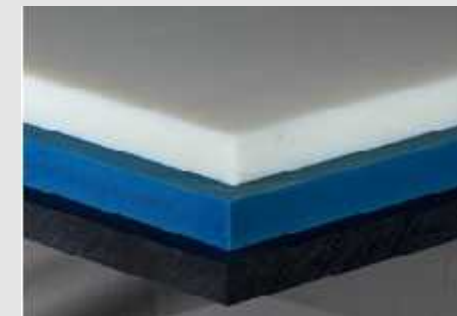

Lightboxes

Light boxes are normally make from an aluminium frame with perspex face which is printed or vinyl faced, with a fluorescent light behind the perspex. Good visibility day and night.

ABS Plastic

ABS is a strong versatile plastic for indoor and outdoor signage, and can be screen printed, or vinyl applied.

## Window Decals

Vinyl lettering or prints applied to windows - most used in retail environments to enhance the window. Sandblasting is also a popular choice to 'block out' parts of the window e.g. the lower half.

## Correx Boards

Correx is a corrugated, light weight and durable plastic ideal for temporary outdoor signs. The board is screenprinted or vinyl applied. These boards are often used by estate agents.

## Bunting

Blue Sugar Designs began in 2005, and have had a passion for all things design since it's inception.

We also offer:

**Design Services** (logo, business cards, flyers, electronic brochures, menu's, websites - to name a few.

**Printing Services** (flyers, business card, posters, calendars, stretched canvas, stickers, wallpaper, banners and so on)

**Clothing, Accessories and Corporate Gifts** (this is too large a section to even include in a brochure, but incorporates headwear, leisurewear, sportswear, executive wear, even kiddies wear, as well as a range of gifts.

**Laser Engraving and Cutting** (opens a host of possibilities - from laser cut business cards, to invitations to scrapbooking items, on a range of materials including wood, glass, perspex and paper.

Don't forget to view our other catalogues to see what else we can offer.
